

Inkjet Plotters: SAF Series (Four Head)

www.CADmachinery.com

Features:

- High speed at 150 m²/hr with resolution upto 600DPI
- Closed Loop servo control
- High reliability, long continuous operation, clear and complete printing .
- USB/ LAN interface
- Printed paper can fall directly to floor. Takeup roller is not necessary, but available.

Technical Specifications

Model	SAF- 4 head
Max. Plotting width (cm)	160/180/200
Paper type	40-250 gram/m ² printing paper
Feed type	Take-up and Auto Feed. Take up and feed bar made of high tech compound material.
Plotting Speed	150 m ² /hr
DPI	300/600
Type of Cartridge	HP51645A / HP51645B
Moving System	Closed Loop servo control for length and width
Interface	USB/LAN port
Operating System	Windows 2000/NT/XP/7/8
Power Supply	86- 264V AC, 50/60Hz
Noise	Plotting status: <68dB; Standby Status: <40dB (ISO 7779)
Ambient condition	Temp: 5 to 35°C; RH: 20-80%
Operation & Display	3 Key panel, self check & LED status display
