## CNC Router for Orthotic Industry

Alpha Systems Limited, Unit 2002, Westley Square, 48, Hoi Yuen Road, Kwun Tong, HONG KONG Tel:852-2572 1085; Fax:852-2838 4965; email: info@CADmachinery.com. Web: www.CADmachinery.com

Orthotic routers have a robust welded steel structure. To work with hard poly propylene materials it is necessary to have heavy duty spindle and servo motors. To make work even more easier, we offer auto tool changing rack with ATC spindle with a choice of 3 to 8 station tool rack. Spindle choice from 4.5 kW to 9 kW recommended.

A special fixture allows machining polypropylene orthotics. The vacuum zone table allows cutting of EVA foam.

We provide a full enclosure for the machine to keep the environment clean.

Our router works seamlessly with the Delcam software and

User Friendly Controller utilizes all the advantages available in the software. It is the best solution for the orthotics industry.

## Features:

- Frames are welded steel with special treatment. No distortion for whole structure
- Rack \& pinion drives for $X$ \& $Y$ axes
- Ball screw drive for $Z$ axis
- Simultaneous 3 axes movement
- $X, Y \& Z$ axis limit sensors
- wireless hand wheel for precise location
- Automatic Material surface sensor
- Vacuum bed with T slot option.
- Automatic lubrication dispenser

Dust collector option

## Technical Specifications

| MODEL | DXE1200 ATC | DXE1812 ATC | DXE2513 ATC |
| :---: | :---: | :---: | :---: |
| Size (mm) | $1360 \times 2400$ | $1360 \times 3000$ | $1460 \times 3640$ |
| Process area (mm) | $1200 \times 1200 \times 200$ | $1200 \times 1800 \times 200$ | $1300 \times 2500 \times 200$ |
| Max. speed (mm/sec) | 1000 |  |  |
| Max. working speed (mm/ $\mathrm{sec})$ | 400 |  |  |
| Positioning accuracy (mm) | 0.02 |  |  |
| Power supply | $380 \mathrm{~V}, 50 \mathrm{~Hz}$ |  |  |
| X \& Y drive | Rack \& pinion with linear square rail |  |  |
| $Z$ drive | Ball screw with linear rail |  |  |
| Drive motors | servo |  |  |
| Vacuum Pump | 5.5 kW For holding down material |  |  |
| Noise Level | About 80dB |  |  |
| Command language | G code/HPGL |  |  |
